NC-CT36H	101.00	98.50	66.50	36.00
NC-CT36	102.38	98.50	59.50	36.00
NC-CT36H2	102.38	102.00	78.00	36.00

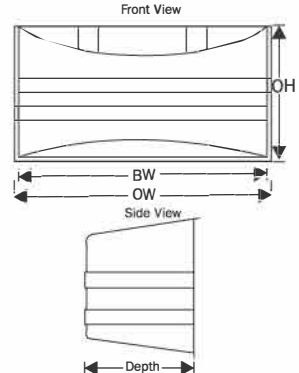

Specifications: Two marker lights are included. You may request no holes cut and/or additional lights. Special colors are available with minimum order of 3 units. These models are designed primarily for the auto hauling industry.

Fast Fact

The more streamlined the vehicle, the more easily it will pass through the air. In addition, it will require far less power to pass it through the air which means a definite savings in horsepower, fuel, oil and friction. A continuance of streamlining to the rear of a trailer has shown drag reduction between 12 and 28.5%; or 6 to 14% mileage improvement.

NC-CT36H & NC-CT36 frontal mount side flanges

Improve productivity and profitability with aerodynamic solutions by Nose Cone.
